Assignment Title: TA on Hospital Payment reform (methodology for costing of packages)

Reference No. Ref. No. HSIP/CS/CQ/02-2019

The Government of Albania has received financing from the World Bank toward the cost of the Health System Improvement Project (HSIP), and intends to apply part of the proceeds for consulting services. Main Objective of the assignment is developing National Health Accounts to support the budget analytical work in the health sector. The Ministry of Health and Social Protection of Albania wishes to design a unified costing methodology that will increase transparency and efficient use of resources. Cost calculation is fundamental to the process of allocating the cost derived from accounting evidence to organizational cost as per types of diagnosis or patients.

Pursuant to Article 10, paragraph 4, of Law no. 10 383, dated 24.02.2011, "On compulsory health insurance in the Republic of Albania", amended, stipulates that the design of service packages is made by technical commissions, composed of

experts, who equally represent the sharing of the the medical, economic and social criteria. The nominal composition of the technical commissions is determined by the Administrative Board of the Fund, according to the rules set out in the Statute of the Health Insurance Fund. The main objective of this activity is to deliver a methodology for the costing of health service packages based on the international best practices and to provide case studies on the package costing. The expertise mobilized will support MoHSP responsible staff and the health insurance fund. In order achieve such objective, the MoHSP intends to hire an international consulting company to perform the services.
